

Mari

Assistant Teacher, she/her

I've been working with kids for almost a decade. I absolutely love working with little ones. It's unpredictable and so exciting! I get to be creative, and they help me see things from a whole new perspective.

I've previously worked as a nanny and come from a Montessori background. I'm passionate about what I do and enjoy being in the classroom. Outside of work, I'm a mom and absolutely love my kids, Adri & Aron. They are my world! I love going on walks, reading, listening to music, and spending time with the people I love.
